DHIS PROJECT TEAM IS HIRING

The highly innovative, award winning Research and Development Team is hiring. We're looking for bold and innovative software developers to join us in bending the arch of history towards the hope of the better future.

Here at DHIS Project Team, we're committed at solving world's greatest challenges in health, agriculture and other domains of science through the use of ICT. It is this commitment that has allowed us to continuously push the realms of technological innovations and craftsmanship forward.

The one thing all our team members have in common, is passion and motivation to get things done, development in the fast lane, getting things done fast, done first and done right, fostering different cultures, such as code sprints and marathons. We don't have to necessarily know everything, but have the spirit and will to learn.

The DHIS Project Team under the Department of Computer Science and Engineering (CSE), College of Information and Communication Technologies (CoICT), UDSM is pleased to announce a Software Developers Recruitment 2018.

We are looking for talented software development enthusiasts in their final year from all the degree programmes in CoICT:
- BSc. In Computer Science
- BSc. with Computer Science
- BSc. Computer Engineering and IT
- BSc. Telecommunications Engineering
- BSc. Electronics and Communication Science

Eligibility:

- Awesome at coding in the fast lane, up-to-date and open minded
- Vision, Curiosity, Attention to detail, discipline, patience and teamwork
- Passionate, confident, determined, effective and efficient at time management
- Creative, strategic, competitive, original and realistic
- Most importantly, be in your final year of studies at CoICT degree programmes

DHIS PROJECT TEAM IS HIRING
